

HIND RABII

*« Love is a word of light
written by a hand of light
upon a page of light »*

Kahlil Gibran, Lebanese poet

THE STUDIO

Sensitive and emotional manufactures.

HIND RABII IS DEVOTED TO SHEDDING LIGHT ON HIS LETTERS OF EMOTION.

Since 1997, the designers Hind Rabii and Michel Orban both industrial engineers have a common passion and love for creation, design and innovation.

We expect lights to shed light, to shine, to create shadows. To do this, the poetry of materials, glass, wood, gold and silver leaf, colours used by HIND RABII, positively alter the realities for playing the emotions card without indifference.

Because here is the poetic message of filters, colours, blended reflections, transparency that appears to make every HIND RABII model appeal to the desire of love and of light.

And today we still have, a need for these words cast on a page of white vellum.

Like you, we imagine that the HIND RABII brand is and will be synonymous with all these terms that are only language.

This language which skillfully builds itself in front of the manufactures that are glass blowing, confection of lampshades, wood, aluminum and steel work. All these trades that HIND RABII manages to show only the essentials.

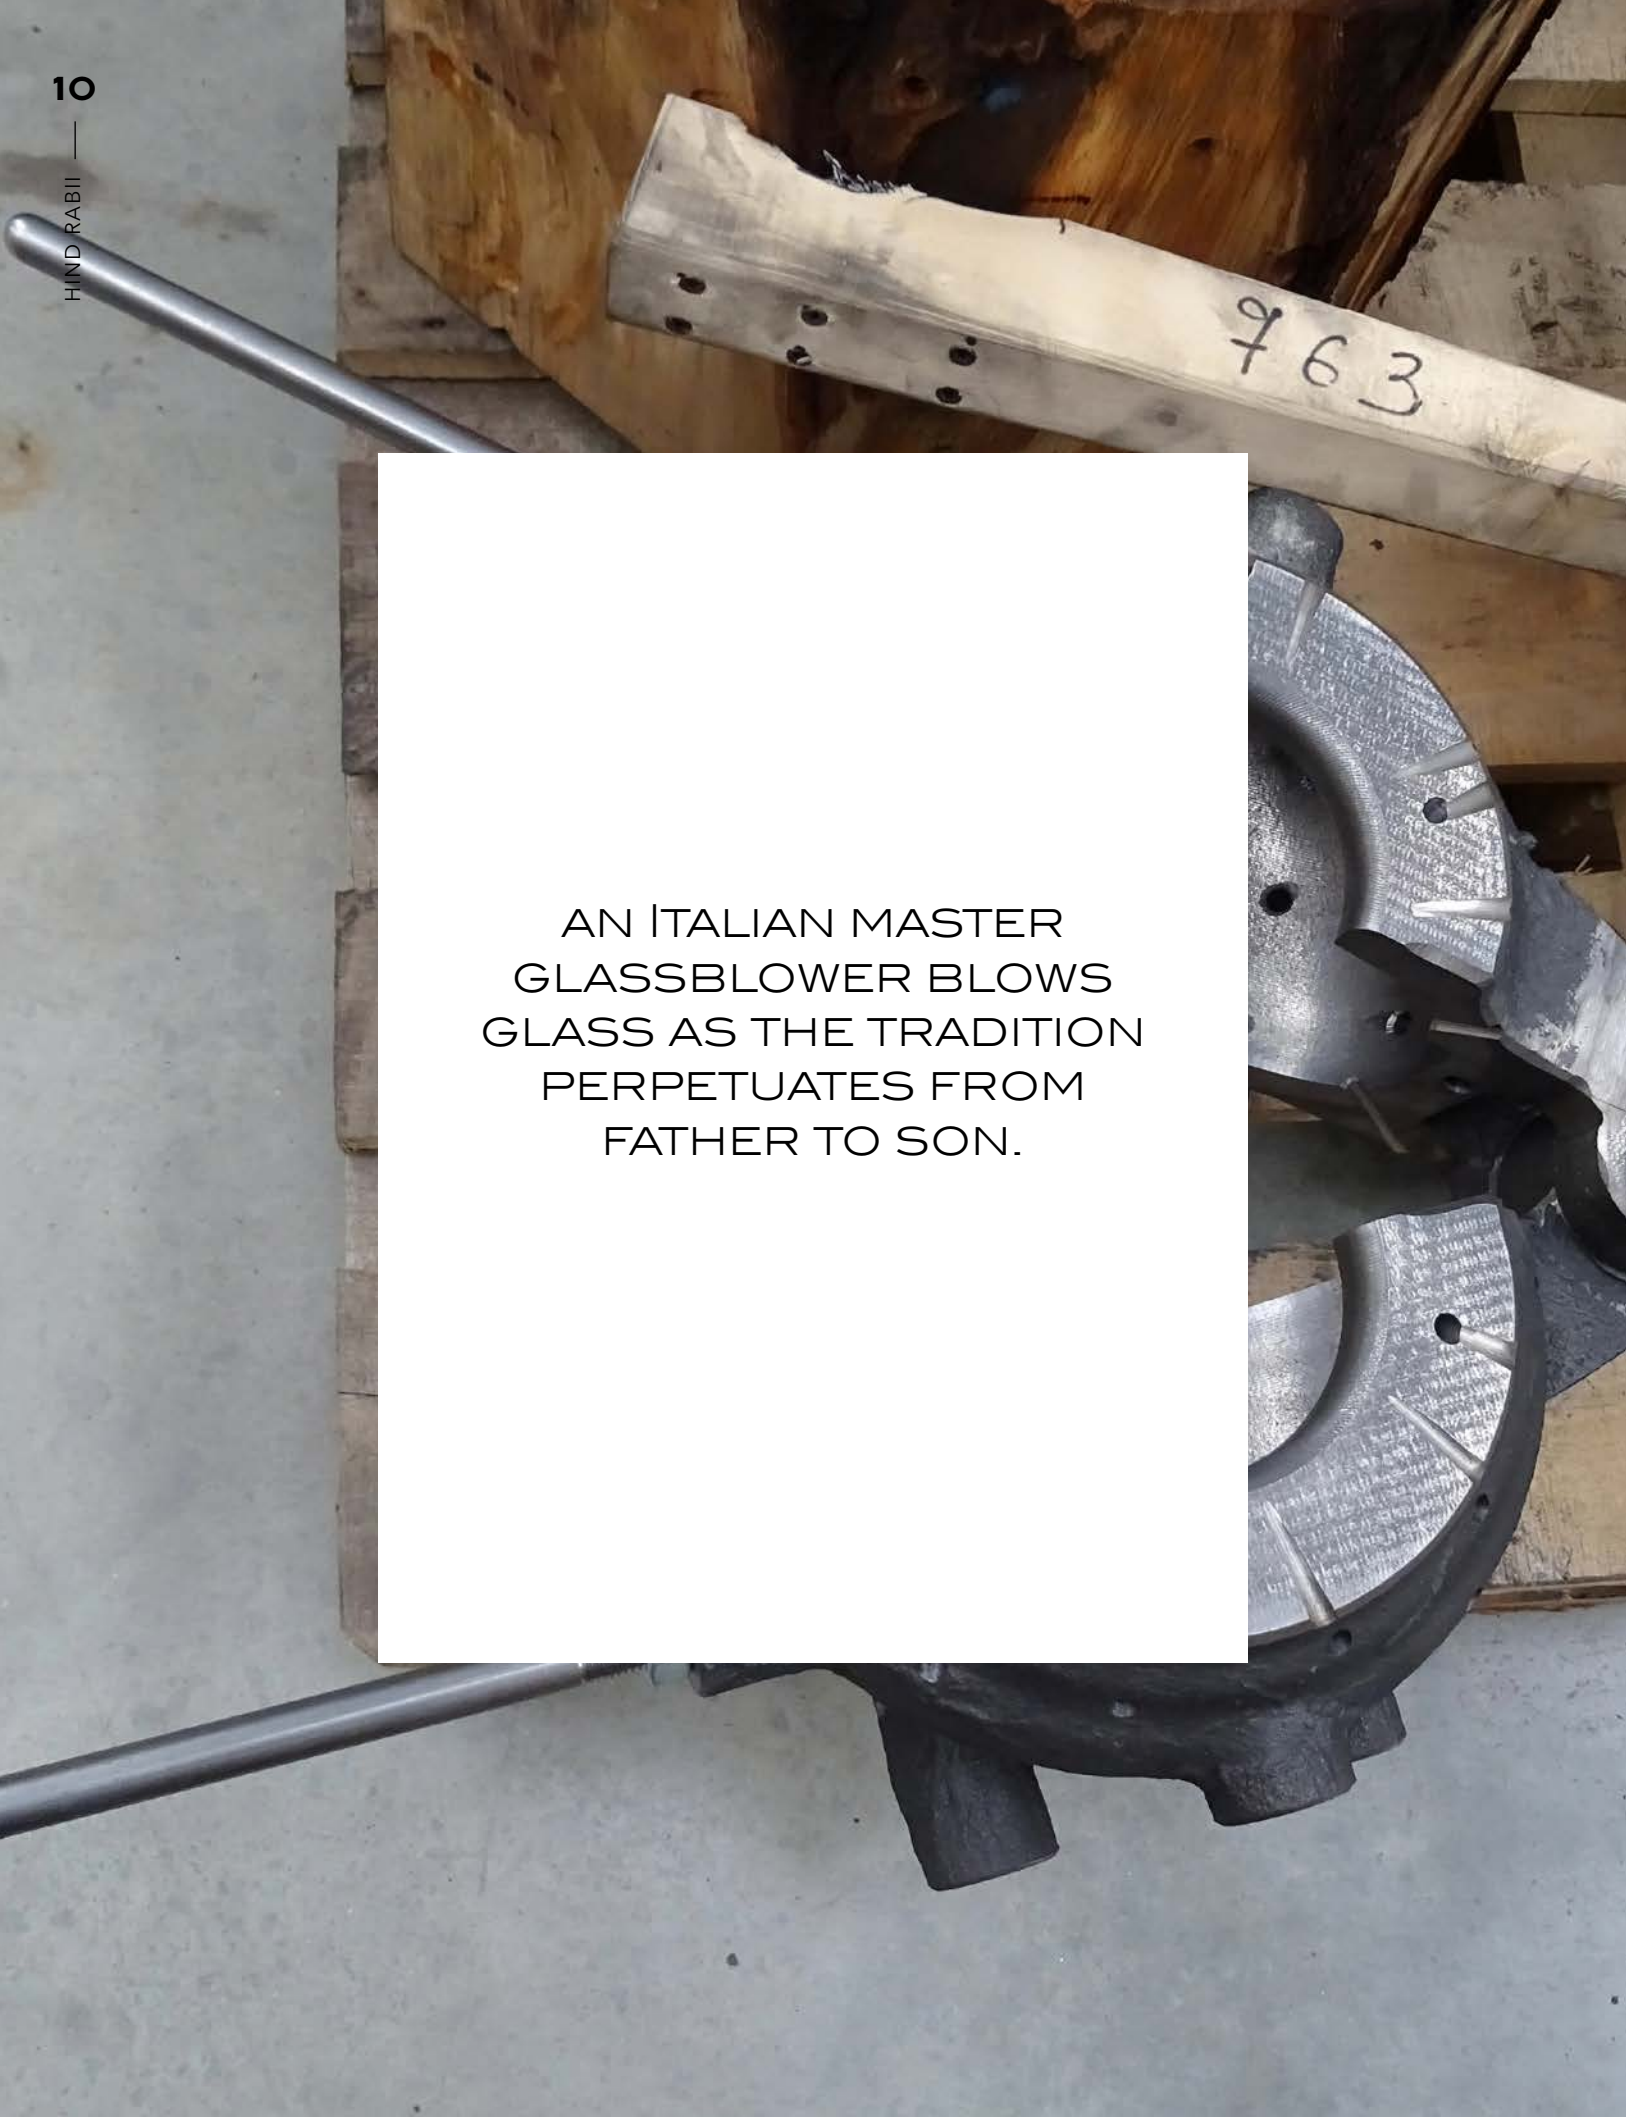

As the Lebanese poet Kahlil Gibran writes, the writing of a hand of light, on a page of light is the vision of light that we offer.

« I THINK THAT THE
QUALITY OF A PRODUCT
CAN BE SUMMED UP IN 3
POINTS: THE CHOICE OF
THE MATERIAL, I ALWAYS
WORKED THE NOBLE
MATERIALS, THE DEXTERITY
OF THE HAND WHICH
TRANSFORMS IT AND THE
EYE OF THE CRAFTSMAN.
THE CRAFTSMAN WILL
ENSURE THAT THE MATERIAL
IS FINISHED IN THE MOST
BEAUTIFUL WAY. »

ESPRIT YA-YA

Design by Hind Rabii - MPLV / 2017

*YA-YA is determined to be at the centre,
at the heart of places, a long fresco or hooked
on modest surfaces.*

*Its lights are all in suggestive and subtle
mother-of-pearl corollas. And ESPRIT YA-YA
comes loose from its surfaces to take shape
in spaces. The limits of its contours double
up to create magical landscapes. Through
keyholes that are free and formed with sense,
ESPRIT YA-YA sculpts and cuts the light
to offer you what you see!*

*ESPRIT YA-YA feels at ease in all circumstances,
dinner jackets in a 17th century Chartreuse
or a Venetian palace. Esprit jeans in a
plane tree. YA-YA and ESPRIT YA-YA come
together harmoniously to illuminate you with
their free spirits.*

FICO

Design by Chiaramonte Marin Studio / 2018

Like the fruit of the same name (FIG in Italian), which conceals succulent pulp beneath a thick skin, here the light is protected by a shell of ceramic hanging from a tape as if from the branch of its tree. It comes in three different shapes.

MERIDIANA

Design by Chiaramonte Marin Studio / 2018

*Meridiana: this is not a sundial, even
if it mess with light.*

*The process in fact is inverse: here the light
is not the means, but the purpose, a great
disk like the sun and hidden behind a big
clock hand or what it seems like, a gentle,
not blinding light.*

ICE

Design by Hind Rabii / 2015

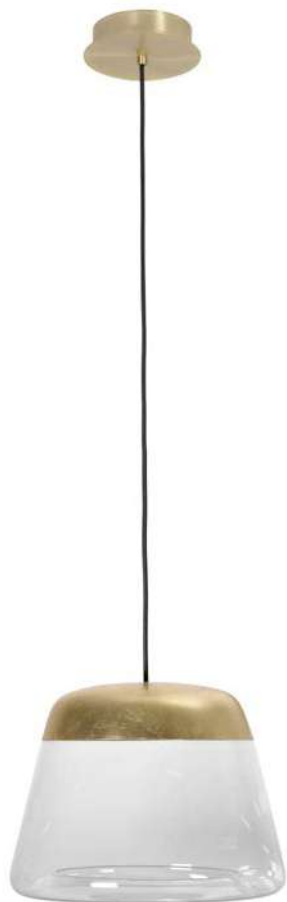

A non-Belgian may not yet be able to imagine an ICE, a sweet (praline in «Belgian») melting on the tongue and which, after the initial asperity, releases a flow of praline chocolate down the throat. The ICE enjoys that kind of roundness that captures the senses, brimming with excitement.

It is bursting with light, ready to explode in every direction or to be encased in its desires by golden or silver corsets. ICE is as asteroid of light coming from nowhere, coming from elsewhere.

BELLE D'I THE GREAT

Design by Hind Rabii - 2017

For this collection, Hind Rabii drew her inspiration from the characteristic shape of Morocco's traditional Beldi glass for tea and infusions.

The simple, clean lines of the pendant are contrasted with the material quality of the glass, obtained by means of blow-moulding techniques.

A timeless lamp: stylish and original, it blends perfectly into any environment, whether classic or contemporary, to create a warm, evocative atmosphere.

REFLECTOR(S) TENSION(S)

Design by Hind Rabii / 2014

REFLECTOR(S), collection of pendants and wall lamps, with an ample choice of heights and diameters, so that the lamps can be combined to create light effects of varying intensity. Cylindrical shade made from velvet or printed fabric in different variants. Metal reflector with aluminium in copper and carbon finish.

TENSION(S), creation of HIND RABII, this pendant for indoor use features a fabric shade and an adjustable cone-shaped aluminium reflector in copper or carbon color for direct and indirect light. With its contemporary linear design, it can be used in various positions and at different heights, so as to obtain an interesting interplay of light and shapes.
