KONCEPT

contemporary LED lighting

MEET THE DESIGNERS

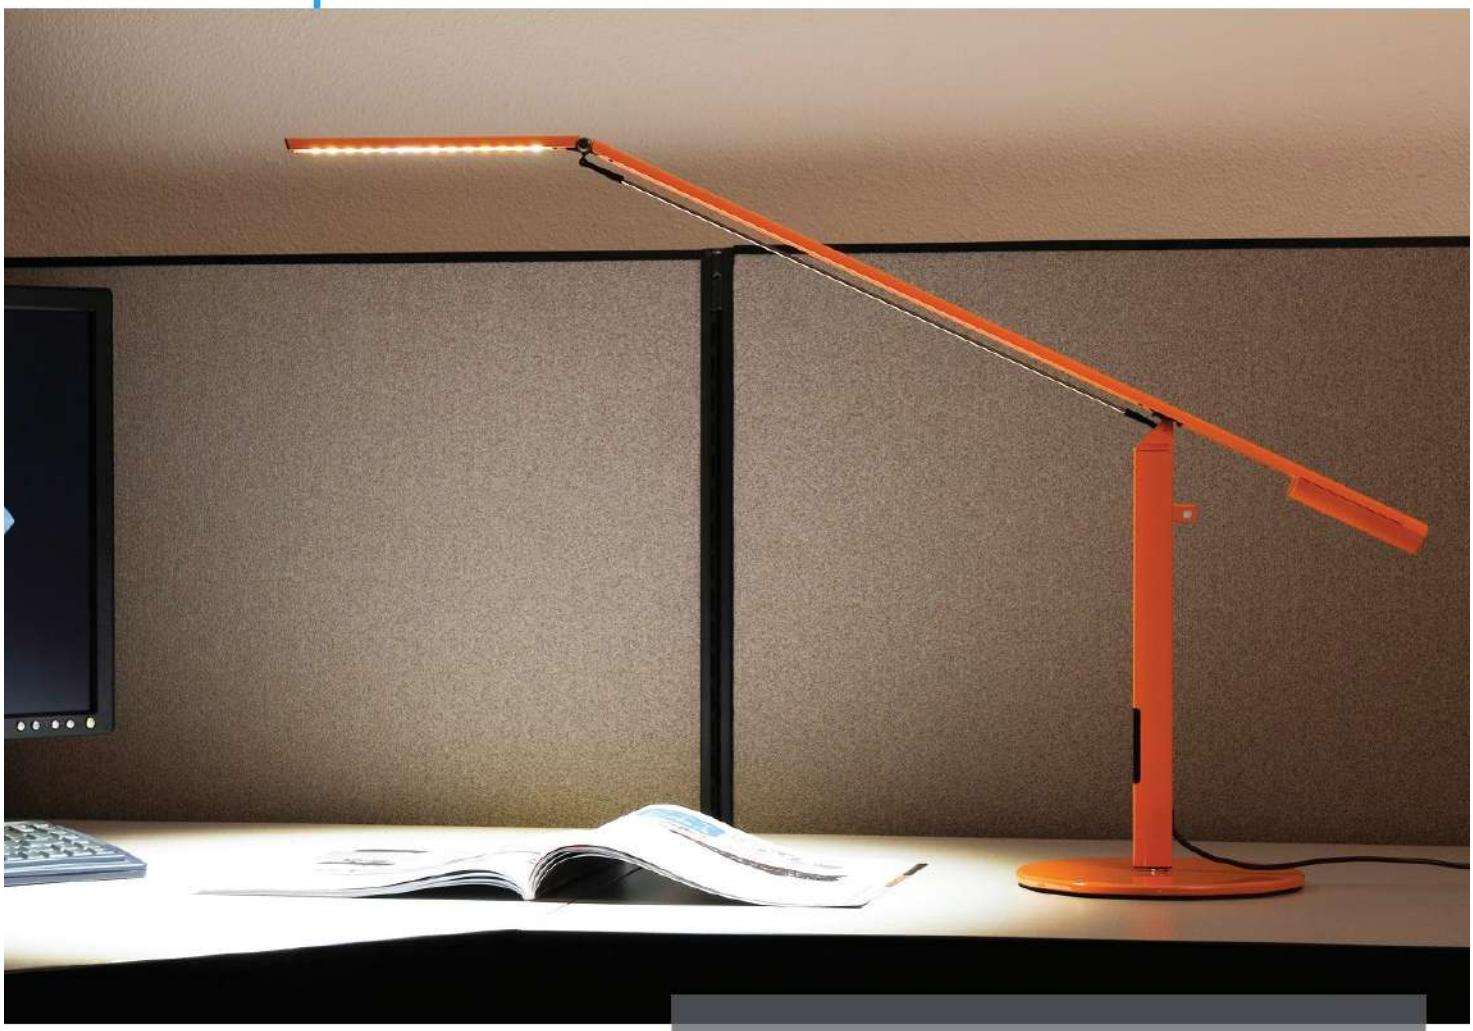
Koncept was born when Peter Ng and his two sons, Kenneth Ng and Edmund Ng, joined forces in 2002 in order to harness years of manufacturing and industrial design experience.

Since then, the family-operated team continues to employ a multidisciplinary approach to design by embracing modern, minimalist lines while maintaining rich functionalities, thus striking the perfect balance between form and function. Together, they designed one of the first practical LED desk lamps on the market- Koncept's signature Z-Bar light, which was selected into the permanent collection of Die Neue Sammlung, the state museum for design and applied arts in Munich, Germany.

The team at Koncept has designed a range of award-winning products which has significantly influenced by pioneering in the LED task lighting design industry. Their works have been featured in major press such as TIME Magazine, Oprah Magazine, and Interior Design Magazine, etc. To date, their designs have won 37 international design awards including the Red Dot Design Award, "The Best Inventions Of The Year" by Time Magazine, iF Design Award, and the Good Design Award.

KONCEPT

equo



The exceptional Equo is a willowy sculpture masquerading as an LED desk lamp. The lamp has a streamlined counterweight design that balances the body of the lamp on a slight stand and weighted base while the LED head tilts and maintain its angle until you change it. Equo is a must-see lamp – see it for yourself to appreciate its unique and elegant design and functionality.

Z-BAR

"Best of Category" in I.D. Magazine's 2006 Annual Design Review
Permanent collection at Die Neue Sammlung, Munich
TIME Magazine's "Best Inventions Of The Year" 2007

Designer
Peter Ng

The Z-Bar collection broke the mold for desk and floor lamp design and introduced the world to Koncept's contemporary stylings. Our designers tossed away the bulb-and-shade for a flexible, streamlined design that contained LEDs and three simple bars. Add intuitive on/off functionality with a dimming option and the rest, as they say, is history. With several sizes to choose from, there's a Z-Bar for every need.

Lumens:	475
Energy Consumption:	9.5 watts
Number of LEDs:	42 LEDs
LED Rated Lifespan:	50,000 hours
Color Temperature (Typical) – Cool:	4,500 K

2013 Best of NeoCon GOLD
2014 Next Generation Luminaires "Best in Class"

Designer
Peter Ng, Kenneth Ng & Edmund Ng

Delivering a phenomenal 99 lumens per watt efficiency, Mosso Pro changes light colors from warm to cool and anything in between. An intuitive built-in touchstrip allows for effortless continuous dimming. Built-in occupancy sensor ensures no energy is wasted lighting up a vacant desk. For smart phone enthusiasts, Mosso Pro comes standard with an USB port, or optionally a wireless charging base is available for recharging Qi-compatible mobile devices. With Mosso Pro, anything is possible.

LADY7

2014 Japan Good Design Award
2014 Gold Spark Award
2014 Interiors & Sources Readers' Choice Award
2015 iF Design Award

Designer
Kenneth Ng & Edmund Ng

Designed with a wispy-thin silhouette, Lady7 provides a beautiful linear light source for your desk. Thanks to her cordless joint design and sleek, clean lines, Lady7 is perfect in any setting. Ultra efficient LEDs generate little heat and allow Lady7 to operate within safe temperatures & without the need for eyesore heat sink fins. All components are housed inside a simple right-angled shape, keeping a clean silhouette that is easy on the eyes.

Lumens	300
Energy Consumption:	6.5 watts
Number of LEDs:	6 LEDs
LED Rated Lifespan:	50,000 hours
Color Temperature	Variable from 2,700 K to 5,000 K
Color Rendering Index (CRI):	83
Dimmer:	Built-in touchstrip
Brightness Adjustability:	Continuous dimming
Standard Color Finish*:	Metallic Black, Silver, Matte Red, Matte White
Material:	Aluminum/Plastic
Cord Color:	Braided cord with matching color
Cord Length:	10'
Transformer (100–240 V; 50/60 Hz):	Included – C-UL-US Certified
Maximum Brightness (15" above desk):	100 fc

Built-in USB port

LADY 7 FLOOR
The sleek and sexy Lady7 is now reaching new heights. With all the same energy-efficient and minimalistic features as its desk lamp counterpart, Lady7 Floor is the perfect pop of color and design for any room. By extending the telescopic arm, this flexible lamp is even more capable of shining light where you want it.

tōnō

2013 Best of NeoCon GOLD
JDP's Good Design Award 2013

Designer
Peter Ng, Kenneth Ng & Edmund Ng

Tono brings a whole new level of decorating to your room or office. Instead of providing standard white light, Tono offers a multitude of colors – including traditional white. Turn the lamp toward the room and watch the colors change, or turn it toward the wall to splash color on your walls. For those who crave the non-traditional, Tono is the lamp for you, and all of your moods.

Lumens:	600
Number of LEDs:	126
Energy Consumption:	18 W

gravy

Bring LED technology and the warmth of wood to your home or office lighting. Edge-lit technology provides a soft, evenly-distributed glow of warm white light. The illuminated LED head swivels 360°, and the wood bar slides back and forth to provide the user with the perfect lighting placement. This striking combination of real wood and aluminum is perfect for any setting. It's all Gravy.

gravy
wall sconce

Spark Awards 2015 Gold Winner
iF Design Award 2016

Designer
Kenneth Ng & Edmund Ng

The Gravy wall sconce maintains its creative, customizable, and contemporary aesthetic while remaining efficient, multi-purpose, and fully-functional. Gravy's swiveling head turns 360 degrees and can bend forward to be used as an ambient light or a direct task light by shining downward. The light can be operated by a wall switch or by touching the center of the LED head and holding it to dim the brightness. Go with the plug-in version, or choose the hardwired option for new installations. Surface plates on the Gravy are customizable, enabling users to select painted finishes, wood veneers, or fabric to match their interior space.

Lumens:	300
Energy Consumption:	5.5Watts
Rated Lifespan:	50,000 hours
Color Temperature:	2,700K

The head swivels a full 360 degrees giving the user full control in where the light shines. Shine it up for ambient lighting, or down as a task light. The LED head can be detached from the main body for easy warranty service. The light can be controlled at its head or by a wall dimmer. Also, the customizable surfaces would bring flexibility to users to create their own unique look. All these ideas are very unique to Gravy, additionally, the head swiveling and detachable joint mechanism with no external wires is a patented invention.

UCX PRO

2015 Best of NeoCon GOLD
Product Innovations 2015 BUILDINGS Favorite

Designer
Kenneth Ng & Edmund Ng

Following the immense success of the original UCX LED undercabinet light (winner of 2011 Best of NeoCon GOLD and red dot: product design winner 2012 awards), Koncept is proud to introduce the UCX Pro. This new version enters Koncept's Pro family (Mosso Pro LED Desk and Floor lamps) that is characterized by exciting, innovative features while maintaining an emphasis on ultra-high energy efficiency, intuitive control, and sleek, minimalistic design. The UCX Pro is already the recipient of the 2015 NeoCon Gold award and the 2015 BUILDINGS Favorite for Product Innovations.
